

THE BLAIRMORE ENTERPRISE

VOL. XXIX, No. 42.

THE BLAIRMORE ENTERPRISE, FRIDAY, OCTOBER 21, 1938.

\$2.00 PER ANNUM

THE BLAIRMORE COMMUNITY SPORTS ASSOCIATION

WANTED

ICE MAKER wanted for the Blairmore Arena, to provide ice for skating and curling. Applications to be in the hands of the Secretary not later than Monday, October 31st. State salary expected.

S. McDOWELL,
Secretary.

Possibility that political and financial conditions might make impossible a European trip for the Trail Smoke Eaters, Allan Cup hockey champions, was advanced by A. Hearne, secretary of the British Ice Hockey Association on Monday in a cable to the Trail association's president.

The Fernie Rotary Club enjoyed a visit on Tuesday of last week from Rotarian Tom Thompson, of Calgary, who represents the Canadian National Institute for the Blind. "Tom," in the course of an interesting address, stated that there were now some 350 guide dogs doing service in America, but only four in Canada, and that his was the only one west of Toronto.

CROWS' NEST PASS SKI CLUB IS ORGANIZED

With their immediate aim being the providing of safe ski trails and the securing of an instructor so that members generally, juniors especially, can be trained for skiing, the Crows' Nest Pass Ski Club was organized at a well attended meeting held at the Greenhill hotel during the week.

The following officers were elected: J. A. Brusset, hon. president; T. J. Costigan, president; Miss D. Evans, vice-president; P. Owen, secretary-treasurer; Mrs. Claxton, Messrs. L. P. Robert and W. Innes, executive.

It was revealed at the meeting that a large amount of work, such as cutting trails, had been done during the summer months by individual skiers. On the hill south of town, a ski trail about three miles long and twelve feet wide had been cut, while on Goat Mountain a similar trail was being blazed.

At another meeting, to be held shortly, a tentative constitution will be drafted and submitted for consideration of the members.

BOARD OF TRADE RALLY AT COLEMAN

On Monday evening at 7.45, a banquet under the direction of Coleman Board of Trade will be held in the Grand Union hotel, to which all business and professional men of the Pass are cordially invited. The guest speaker will be Mr. C. E. Stoddell, assistant to the C.P.R. vice-president, western lines, and a past president of Winnipeg Board of Trade.

As accommodation is limited, those desiring tickets should get in touch with Mr. L. I. Morgan, president of Blairmore Board of Trade, or telephone to Mr. W. L. Rippon, Bank of Commerce, Coleman, or H. T. Halliwell, Coleman Journal office.

Tickets for representatives and visitors from the Pass towns are \$1.00, and for Coleman members \$1.25.

J. H. PEEL TRANSFERRED TO KIRKLAND LAKE, ONT.

J. H. Peel, who for about five years has been resident district agent for the Metropolitan Insurance Co., has received word of his promotion to assistant manager for the company at Kirkland Lake, Ontario, and will leave for his new post shortly.

Honoring Mr. and Mrs. Peel and daughter, about twenty-five of their friends gathered at the home of Mr. and Mrs. J. V. McDougall on Monday evening, to extend them a farewell. Games and contests were staged during the evening, after which a large photo of Crows' Nest Mountain was presented to them as a memento of their stay in The Pass. The party broke up at midnight with the singing of "For They Are Jolly Good Fellows."

We understand that Mr. Idris Evans has been appointed to succeed Mr. Peel here.

Fraser M. Gerrie has been appointed managing editor of the Edmonton Journal.

Medicine Hat will be away to big things today with the opening of a credit house.

Mr. Aberhart has only got another year in which to absolutely annihilate the banks of Alberta. What a hope!

L. E. Nelson, operator of the radio station at Sentinel for the past two years, has been transferred to Calgary, and is succeeded at Sentinel by O. J. Antillo, of Ottawa.

Mr. Gullion, Lethbridge district manager of Western Grocers Limited, was in town on Wednesday, accompanied by Messrs. Martin and Prentice, of the Lethbridge staff.

A grand roundup dance will be held in the Lundbreck hall on the night of Friday, November 7th. Cowboys will celebrate with good old songs, dances, etc. Hoek's orchestra will furnish music. A good time is promised.

Sunday next will be observed as Anniversary Sunday at the Bellevue United church, when at the morning service Rev. E. B. Arrol, B.A., of Blairmore, will be the speaker, and in the evening Rev. C. Burkholder, of Vancouver, field secretary of the board of religious education, will address the service. Special music will be rendered by the senior choir at both services.

The Fernie band, winner of the Crows' Nest Pass Musical Festival award for the past two years, also the McPherson trophy at Cranbrook this year, were guest with their families and friends at a banquet in Fernie on Wednesday of last week. The band includes some 42 members of various nationalities.

The bed of Coleman Crystal Ice arena is being hard-surfaced, with a view to the easier making of better ice. The surface is to be perfectly level and water-tight, so that whatever will lie on the surface and freeze quickly. It is believed by some to be far superior to the sawdust floor, though the latter would permit a far whiter ice surface on which the puck is more easily seen.

BELLEVUE HAPPENINGS

The home of Mrs. A. Rhodes was the scene of a nicely arranged miscellaneous shower in honor of Miss Janet McLean, bride-elect of the month. Bingo was played, followed by the serving of a dainty luncheon, after which the guest of honor was presented with many beautiful gifts, for which she thanked her assembled friends. More games and music brought a most enjoyable evening to a close around midnight.

Mr. and Mrs. G. Key returned on Sunday, after spending a brief holiday in Spokane.

Mrs. A. Charlesworth returned on Monday from Calgary, where she had been visiting for the past few weeks. Mrs. J. Tutt was a visitor to Lethbridge on Saturday.

Mrs. J. Bosely left Tuesday last on an extended holiday visit to her old home in Nova Scotia.

Mrs. Eichwig, of Whitefish, Montana, is visiting at the home of her mother here, Mrs. J. Beal, senior.

HILLCREST HAPPENINGS

Mr. and Mrs. J. Eliek are rejoicing over the advent of a baby daughter on Friday last.

A very delightful whist drive was held at the home of Mrs. H. Westrup last Thursday, when she entertained a number of her friends. Prizes were won by Mrs. J. Ironmonger, Junior, Mrs. J. Dudley and Mrs. H. Stobbs.

Mr. and Mrs. A. Aitken and family left Saturday evening for New Zealand, where they plan on residing in future.

Donald Thornton returned home on Monday from Gem, where he has been spending the summer at his aptly.

The stork paid a second visit to Hillcrest on Friday, leaving a baby boy at the home of Mr. and Mrs. C. C. Terence.

A very successful whist drive was held in the K. P. hall on Friday last, under auspices of the Pythian Sisters. Prizes were won as follows: Mrs. H. Douglas, first; Mrs. R. Turner, second; Mrs. D. Grant, third.

Mr. and Mrs. G. Thornton were week-end visitors to Calgary.

COWLEY HAPPENINGS

After a disappearance of several weeks, bluebirds and robins have returned to this district. It is surmised that this is omenous of a mild spell of weather.

Mr. and Mrs. Schumacher have returned to their home in Claresholm, after spending several days with their daughter, Mrs. Earl Matthews, and family here.

On Tuesday night of this week a miscellaneous bridal shower, sponsored by the Cowley girls, was held in the Masonic hall for Miss Dorothy Wood, whose marriage took place in the United church on Thursday, the 20th. October. A large crowd was in attendance, and the bride-elect was the recipient of many beautiful and useful gifts from her many friends. Entertainment for the early part of the evening was devoted to cards, when there were eleven tables of progressive whist at play. The ladies' prizes were won by Mrs. F. A. Tustian and Mrs. I. Christie, and the gents' by Stanley Snyder and Frank Pinzola. After an appetizing luncheon, dancing was indulged in for a few hours, with music supplied by Miss Edith Murphy and Mrs. Arthur Tustian. M. A. Murphy was master of ceremonies.

Gay-colored flowers, tastefully arranged, banked the altar of the United church here, making a pretty setting for the marriage of Dorothy Mrs. Wood, youngest daughter of Mr. and Mrs. J. R. Wood, to Mr. Leslie Day, son of Mr. and Mrs. Robert Day, at 12 noon on Thursday, October 20th. Rev. R. Upton, of Bellevue, officiated. The wedding march was played

YOUNG PEOPLE'S RALLY

Under the auspices of the United church, a young people's rally, including Blairmore, Bellevue, Hillcrest and Coleman, will be held at the local church this Friday evening at 8 o'clock.

The rally will be addressed by Rev. C. Burkholder, recently appointed field secretary of the board of religious education.

BLAIRMORE PUBLIC LIBRARY

The annual meeting of the Blairmore Public Library board was held in the library building on Wednesday evening last, when the 1937 officers were re-elected by acclamation, as follows: D. MacPherson, chairman; Mrs. C. M. Larbalestier, secretary-treasurer; D. MacPherson, Mr. and Mrs. S. White, Miss G. Frey and Mrs. Larbalestier, members of purchasing and selector committee.

Financial statement was presented by Mrs. Larbalestier, and showed receipts for the year of \$118.09, with a bank balance of \$374.14. All help has been voluntary and incidental expenses for supplies, postage, etc., have been just over \$10.00. Some three hundred books have been added to the shelves, including purchases and donations. The secretary stated that Miss J. Montgomery, librarian of the extension department, University of Alberta, Edmonton, who recently paid an unofficial visit to the library, was well pleased with its progress. Application for a government grant will be made at the end of the year.

Arrangements were made for the heating of the building, and for cleaning and improving the decoration of the rooms. The young people's room has already been decorated, thanks to a friend's donation. When renovation is completed, the board plans holding a publicity tea.

At all times, visitors are welcome when the library is open on Wednesdays and Saturdays from 4 to 8 p.m.

Your name would look good on our subscription list.

by Mr. Arthur Tustian on the violin, accompanied by Mrs. Ed. Smyth, sister of the bride, at the piano, when the bride, who was given in marriage by her father, appeared in a charming floor-length gown of peach sheer and white halo hat, with matching accessories. She wore a corsage bouquet of orange blossoms and lily of the valley that had been worn by the groom's mother on her wedding day, and carried a bridal bouquet of pink roses and carnations. The bride's attendants wore floor-length gowns, also, of pastel shades. Mrs. Arthur Tustian, sister of the bride, as matron-of-honor, in deep blue taffeta, carried a bouquet of white chrysanthemums, while Miss Doris Day, sister of the groom, as bridesmaid, in apricot sheer, carried a bouquet of cream chrysanthemums. The groom was supported by his brother, Robert Day. Following the ceremony, the invited guests repaired to the Woods' home for the reception. Mrs. Wood, mother of the bride, wore a gown of navy crepe, while Mrs. Day, mother of the groom, was gowned in green silk. For travelling, the bride changed to a rose silk suit with black accessories. The newbrides, amidst showers of white lead, left by motor for a honeymoon trip to points in British Columbia, and upon their return will take up residence on a ranch a few miles north of Cowley. Among the house guests were Mr. and Mrs. Peter Lundgren, Miss Mildred and Mr. Reynold Lundgren, of Vulcan; Mrs. Elsie Duffield, of Pincher Creek; Mr. and Mrs. R. J. Day, Mrs. Richard Coates, Mr. Edward Percival, Rev. Mr. Upton, Miss Aileen Ritz, Mr. and Mrs. Ed. Smyth, Mr. and Mrs. Stanley Snyder, Mr. and Mrs. F. A. Tustian, Junior, and Miss Edith Murphy.

"Serve the Church that the Church May Serve You."

CENTRAL UNITED CHURCH BLAIRMORE

A Lesson From Europe

If the recent crisis in Europe has taught Canadians anything, they must surely have learned the value of unity, in which it is truly said, lies strength. The fate of Czechoslovakia in the past few weeks has demonstrated to the entire world the truth of the old adage, "United we stand; divided we fall."

There is no gaudy statement that had it not been for internal dissension between the elements comprising the population of Czechoslovakia, Hitler would have had no good ground for taking the steps which have resulted in the dismemberment of the 29-year-old central European democracy.

Including, as its boundaries do—or should we say, "did"—a number of racial minorities, Czechoslovakia would have been an unpaired entity today had the views and aspirations of these minorities been welded into an homogeneous whole with those of the Czechs and Slovaks themselves.

Had it not been for the dissension within the Czechoslovakian borders, the German chancellor would have had no reason for intervening that would have stood the test of world opinion, and likewise Chamberlain of Great Britain and Daladier of France would have had no reasonable excuse for according to Hitler's demands, nor would they have had the support of their constituents at home in so doing.

It would be as well for the people of Canada, secure though this country may seem from "outside" interference at the present time, to heed the lesson which may be learned from recent history as exemplified in the partitioning of Czechoslovakia, and to remember that a house divided against itself is destined to fall sooner or later.

Outstanding Difficulties

While there may be little reason to fear serious division in the country on racial lines, there is a danger of ideological differences becoming accentuated unless a spirit of tolerance permeates the views of the people in different sections of the country. The growth of political, economic and social cults and "isms" sometimes leads to serious divisions in viewpoint and may culminate in regrettable decisions and actions, unless the great majority refuse to be stampeded from an attitude of clear reasoning and patient sanity.

Apart from these differences in ideals and ideas of a political, economic or social character, Canada faces other difficulties which must be overcome if the foundations upon which a united people were built at the time of Confederation are to endure and this country is to take its place in the sun as a virile, powerful and happy national entity.

These difficulties, not necessarily insurmountable, were recently enumerated by Dean F. C. Cronkite of the University of Saskatchewan, addressing a school teachers' convention, in support of his contention that constitutional changes are needed if the unity of the country is to be preserved, as follows:

The Maritime problem occasioned by dissatisfaction of the Maritime provinces with Confederation; the geographic problem due to the immense area and unfortunate geographic divisions; the difficulty of district regional economies typified by the agricultural west and industrial east; conflicting racial philosophies as seen, for example, in the neighboring provinces of Quebec and Ontario; and, finally, the financial ascendancy of Ontario, where the great bulk of the nation's wealth is at present concentrated.

Patient Is Needed

One has only to read this list of obstacles to perfect unity to realize the immensity of the problem which has to be solved if this youthful nation is to realize the vision and the hopes of the Fathers of Confederation. This can be achieved to the full but only by the exercise of courage, clear thinking and a determination to reach the goal by the safe and sane methods which experience has taught are the only assurance of ultimate success.

It is to be hoped that the Rowell Commission on Dominion-provincial relations, when it reports its findings, will be able to point the way to a successful solution of these problems, and that the patience and patience must be exercised in anticipation that this hope will be realized before very long.

To Restore Eyesight

People Are Urged To Will Their Eyes To Science

Persons were urged to will their eyes to science in order to restore the eyesight of other individuals.

Dr. Ramon Castroviejo, of New York City, author of the proposal, said the eye surgeons frequently can bring back the sight of persons who have suffered injuries to the cornea, or front covering of the eye.

In many cases, however, the tiny pieces of cornea tissue necessary for grafting a new window into the eye are not available for replacement.

These tissues can be obtained from the eyes of stillborn infants or from corpses if the operation is done soon after death, Dr. Castroviejo said. The latter source is the more reliable, he added.

It is possible to preserve the eyes in usable condition for several days, he explained. Thus it would be possible to keep a supply on hand in the hospital refrigerator and to co-ordinate the number of operations with that supply.

Hong Kong is not a city but a small British island colony off the China coast.

Mountains on the moon are measured by the lengths of their shadows.

GET QUICK RELIEF FROM COLDS

At the first sign of a cold, rub a little Mentholatum in the nostrils. See how this healing balm quickly penetrates to the nasal passages... soothes inflamed membranes... clears nose and head... brings quick leading relief overnight... Great relief to colds of Mentholatum today. Relief guaranteed or money back.

Equal In Last Analysis

But Girls Cut Their Teeth Earlier In Life Than Boys

Age for age, girls have more teeth missing, filled or decayed than boys, it was concluded in a report on a United States Public Health Service study.

This is not simply because they are girls, according to Dr. Henry Klein and Dr. Carroll E. Palmer, who made the study, but rather because a girl's teeth are cut earlier in life than a boy's and have, therefore, been exposed longer at the same age to wear, tear and germs. In the last analysis, however, the girls show no greater susceptibility to dental decay than boys.

Continuing their dental studies with students attending the municipal elementary schools of the small urban community of Hagerstown, Md., the doctors gathered the present data from examinations of 2,222 boys and 2,184 girls.

SHE WAS A VICTIM OF HEADACHES

Kruschen Got at the Cause

This woman's headaches were of the gripping kind that reduce the sufferer to something like helplessness of the stricken laborer. She tried pills. All without avail. Until Kruschen could help her.

"I used to get very bad headaches," she writes. "No tablets or pills of any kind could relieve them. One morning, casually, I tried Kruschen Salts in a glass of hot water. I continued taking it, but I have not had one of those awful headaches since. Kruschen suits me better than anything else. I find it very good."—(Mrs.) L.A.W.

Headaches can nearly always be traced to sluggishness of the kidneys, liver and intestines, and to the unexpended retention in the system of stagnating waste material which poisons the blood. The mineral salts in Kruschen stimulate the internal organs to healthy, regular action so that no clogging waste is allowed to collect. Your inside is kept clean and serene. And that is just how Kruschen Salts brings quick and lasting relief from headaches.

United States Cattle Quota

Canada Has Not Yet Supplied Full Amount This Year

The United States quota for Canadian cattle for 1938 will permit entry of 155,796 cattle of 700 pounds or more, 51,285 calves of 400 pounds or more in weight, and 20,000 dairy cows. To September 3, Canada had supplied 34,010 head or 21.8 per cent of the heavy cattle, 32,610 head or 63.8 per cent of the calves and 4,285 head or 21.4 per cent of the dairy cows. By August 28 of last year, the quotas of both the heavy cattle and the calves had been filled and that of dairy cows 20 per cent used.

Described In One Word

Easy To Tell What President And Dr. Dafeo Talked About

Dr. Dafeo went to Washington to visit the White House. Although Dafeo had been allotted a five-minute visit he was closeted with the President for almost half an hour. When he emerged, his publicist tried to ascertain the substance of their conversation, to deliver it to the press for exploitation. Dafeo refused, insisting that it was extremely confidential. After lengthy pleas, the distraught press agent shrieked: "Can't you tell me a word about it?" "One word? Yes," replied Dafeo. "Babies."

Is Skilled Pilot

Major Smith Landed Airplane On Deck Of Warship

Major C. H. Chickster Smith, who arrived in England from Canada after taking part in the international contest for 14-foot dinghies on the Canadian lakes, was one of the first men to land an airplane on the deck of a warship. A skilled pilot, he also organized the Naval Air Mission to Greece after the war and in 1921 accompanied Lord Bessington on his air mission to Japan, at the request of the Japanese Navy, to undertake the organization, equipment and training of its Naval Air Service.

No newspaper reporters were present when the Wright brothers first flew, and when the story finally did reach the newspapers, very few people believed it.

Leaf beetle larvae get fresh air to breathe several feet under water by thrusting their heads into the air spaces of lily stems.

Greenland, at the present time, is moving away from Europe at the rate of about 50 feet per year.

The cricket's note sometimes is so loud that it can be heard a mile away.

Canada's First Moslem Church

Modest Structure Of Brick Vener To Be Built In Edmonton

The First Moslem church in Canada will be at Edmonton. The building permit says the owners will be the Arabian Moslem Association there. It will be a modest one-story 30x50 structure of brick veneer on 10th avenue. It will be striking to find if the congregation are all Arabs for the Moslems cover a diverse number of nationalities. Of course, even in Great Britain, there have been substantial conversions to Islam and they have their mosques, so that it is surprising Canada has not before this had some churches of that faith. Already, there are 30 differing creeds in Canada and too many perhaps in serious competition. The census says there are two thousand professing Mohammedans in this Dominion. But Islam, founded by the prophet Mahomet about 600 A.D., at Mecca, has a world membership of 209,000,000, which is about 3,000,000 greater than that of Christian Protestantism and 125,000,000 less than Roman Catholicism.—Brandon Sun.

SELECTED RECIPES

CORN STARCH CAKE

1 cup white sugar
1/2 cup butter
3 eggs
1/2 cup St. Lawrence or Durham
1 1/2 cups flour
1/2 cup milk
3 teaspoons baking powder
1 teaspoon lemon flavouring
1 teaspoon salt
1/2 cup butter and sugar until light. Add well-beaten egg yolks. Mix well. Add milk alternately with sugar. Bake in greased pan at 350 degrees for 30 minutes. Fold in flavoured and beat well. Fold in two layers, 20 to 25 minutes, moderate oven.

JELLO PLUM PUDDING

1 package lemon or cherry Jell-O Dash of salt
1/2 teaspoon cinnamon
3/4 teaspoon cloves
1 pint hot water
1/2 cup finely cut raisins
1/2 cup finely cut cooked prunes
1/2 cup finely cut citron
1/2 cup finely cut nut meats
1/2 cup Grape-Nuts
Combine Jell-O, salt, and spices; add hot water and stir until Jell-O is dissolved. Chill. When slightly thickened, fold in combined fruits, nuts, and Grape-Nuts. Turn into mold. Chill until firm. Unmold. Serve with foamy sauce or with whipped cream flavoured with nutmeg. Servon 10.
Note: One-fourth cup brandy may be added with fruits, if desired.

Satisfactory To Designers

United States New Airliner Has Passed All Tests

The giant new airliner, 42-passenger Douglas C-4, in 46 test flights has exceeded the predictions of its designers. It was announced at Santa Monica, Calif. The sky leviathan was built to the order of five United States airlines at a cost of nearly \$2,000,000.

Notes: Over these results: The guaranteed high speed of 240 miles an hour was exceeded by a comfortable margin.

On four engines, during "awful" climbs, the plane rose above 20,000 feet with a full load.

On three engines the plane reached a ceiling of 20,000 feet.

The plane is 139 feet, three inches from tip to tip, and 97 feet long.

Expert Placer Miner

Earnings Of Blind Youth Sometimes Reach \$5.00 A Day

Welton Benton, 24 years old, has not let blindness prevent him from becoming an expert placer miner. The blind youth, since going to the Black Hills, near Mystic, South Dakota, with his parents in 1934, has constructed a huge water wheel, sluice boxes, laid several hundred feet of railroad track for his small ore car and tunneled into the hillside not far from his home. He doesn't need to see the flakes of gold when they are in riffle and pan. He can tell by the weight of the mineral and its sound when scratched with tin or rock. His earnings total from 50 cents to as high as \$3 a day.

The Utah Salt Flats

Extend For 200 Miles And Surface Is Very Hard

The salt flats near Salt Lake City, where John Cobb set up a new world's land speed record only to lose it a day later to Capt. Eylon, form a vast amphitheatre 200 miles in extent. The surface is so hard that wooden stakes have to be ironed before they can be driven into it. The salt is, however, quickly cut into furrows by heavy cars travelling at high speed and has to be levelled by scrapers as soon as the car has passed. Mr. Cobb is a fur broker in London. Speed driving is his hobby.

Many a man's future is no further away than the front of his car.

For 24 Years Vicks Advertising Has Been Sponsored by a Board of Physicians

IT CLEARS UP A STUFFY HEAD FAST!

[AFTER THIS, USE IT SOONER AND HELP PREVENT MANY A COLD FROM DEVELOPING]

Va-tro-nol is a specialized medication for the nose and upper throat—where most colds start. Used at the first sniffle or sneeze, just a few drops up each nostril, it helps to prevent mucus from developing. Even when your head is stopped-up from a neglected cold, Va-tro-nol clears away clogging mucus, shrinks swollen membranes, lets you breathe again.

VICKS VAPOROL

You can feel its tingling medication go to work

Make Good Living

Progress Made By Denmark Farmers In Last 150 Years

In 1788, states the Montreal Gazette, the peasants of Denmark won their freedom from the old system of villeinage under which they were little better than workers for the great land-owners. This year the farmers and all other citizens are celebrating the 150 years of liberty and discussing with justifiable pride the progress that has been made in the century and a half. After the breaking-up of the estates the land was divided into farms, small as compared with the farms of North America but astonishingly productive and self-sufficient for the families that work them.

Agriculture is the primary activity and Danish products find favor in the British and Continental markets. Exports of butter, eggs and high-grade bacon bring much wealth to the Danes on the land and there is a constant effort to retain the foreign markets.

The average farm is 15 acres and the farmer, his wife and children do all the work. With a half dozen or more cows, a couple of score of pigs, a horse or two and many hens, the family makes a fair living on the land, which also provides most of the food for the animals.

This is intensive and intelligent farming, to which the government lends every encouragement in the way of loans, which also are managed intelligently. There is no high interest rate for these farm loans.

The practice being to charge a fair rate when crops are good and a low rate when they are not so profitable.

Through the co-operative societies, which have reached a high state of efficiency in Denmark, marketing of products at home and abroad is a comparatively easy matter. The farmer also buys many of his supplies through these co-operatives and is quite satisfied with his returns.

There being no coal in the country, dependence on an agriculture rather than on manufacturing and other industries. The government, accordingly, concerns itself chiefly with bringing about farm improvements and with reclaiming marsh and wooded land. As for the beach and other forests, when a tree is cut another is planted, with a view of maintaining the national wealth.

The 200,000-odd farmers in the population of 3,500,000 or thereabouts seem to be doing well with the liberty to work for themselves that was won in 1788.

A machine for locating thunderstorms and reporting them by radio, has been perfected at the Melbourne University, Australia.

The average life span of a tortoise is approximately a hundred years.

A barrel of crude petroleum yields about twice as many gallons of gasoline today as it did 18 years ago.

All over China visiting Chinese is the same, but every province, or even district, has a different pronunciation.

Quite Simple

Painter: "But, madam, how can I make a portrait that resembles you from these two photographs? One was taken in 1910 and the other recently."

Client: "Oh, I thought you could take the face from one and the dress from the other."

In Siberia, in 1908, wind from a meteor blasted down forests over an area of 100 square miles.

The latitude of the north star always is the same as the latitude of the observer.

About 7,000 persons are drowned in the United States each year.

TO DELVE INTO MARKETING OF WESTERN WHEAT

Winnipeg—Premier John Bracken of Manitoba announced his government would move shortly for an international conference on the marketing of western agriculture products. The meeting would be held in Winnipeg, the date to be set later.

Mr. Bracken said outstanding Canadian and United States authorities would be invited to attend and special emphasis would be placed on the problem of marketing wheat. The conference also would consider the marketing of cattle, hogs, butter, honey, poultry products and fish.

It is hoped representatives of leading wheat-exporting countries and an authority on European markets will be able to join discussions.

"The price situation which now exists warrants the most serious consideration of every Canadian," the premier said in announcing the conference. "With No. 1 Northern wheat worth a little over 60 cents per bushel, only seven cents a bushel more than the average for 1932-33, the worst year that we experienced during the depression, the future trend of prices and markets and what to do about them becomes of paramount importance."

"In terms of gold, present prices for wheat are not very far away from the levels established at the low point of the depression in December, 1932. The 80-cent price for wheat this year established by the wheat board and the Dominion government has saved western Canada. But what of next year and the years that are to follow? The situation is a challenge to western agriculture and a challenge to the nations as a whole."

"Adequate markets for our surplus agricultural products are absolutely essential to the economic well-being of Manitoba and other western provinces and the Manitoba government feels that the time has arrived when the whole question should be considered in the light of our experience since 1920, and in the light of more recent developments."

"The situation is forcibly brought home to us in western Canada this year when larger wheat crops in the United States and Canada, and fairly substantial production elsewhere, has not been accompanied by a corresponding improvement in international demand for wheat, with the result that prices are now about half the level of a year ago."

"The economic development of Manitoba and of western Canada has been such as to yield large export surpluses of farm products and to project the west extensively into the field of international trade and consequently we must give much more serious consideration to our export position and the basis of our trade with other countries."

"The conference will not be restricted to wheat but will include consideration of the problems associated with marketing surpluses of cattle, hogs, butter, honey and poultry products and fish. Outstanding Canadian and United States authorities will be invited, as well as representatives from the other leading exporting countries, and if possible an authority on European markets."

Gas Price Reduction

Would Save B.C. Consumers \$500,000 A Year

Victoria—British Columbia consumers will save roughly \$500,000 a year for every one-cent reduction in gasoline price ordered by the provincial fuel commission, an unofficial estimate indicated.

Dr. W. A. Carrothers, former University of British Columbia professor and chairman of the fuel commission, said he would order a reduction in gasoline prices within 10 days. The order is subject to approval of the provincial cabinet.

Plan Operating Again

Ottawa—The farm placement scheme that last fall and winter put 42,000 persons, the vast majority single men, on farms in Canada's four western provinces is operating again. Placements this year are expected to be reduced considerably because of the generally brighter western picture.

Reminder From Britain

London—The British government has repeated its reminder to Japan that British commercial interests in Hong Kong and southern China must be respected. The British ambassador at Tokyo, Sir Robert Craigie, informed the Japanese foreign office of the British attitude "within the next few days."

Warning From Japan

Ask Britain And U.S. To Give Her Free Hand In China

Tokyo.—The Japanese government urged Great Britain, the United States and other powers to "refrain as far as possible from moving troops, warships, and aircraft in south China" in view of the landing of a Japanese expeditionary force, presumably for a drive on Canton.

Notes were sent to the Tokyo embassies of the principal powers asking for co-operation in prevention of incidents in connection with the south China campaign.

The notes designated the area between Swatow, 200 miles northeast of Hong Kong, and Pakhoi, about 350 miles southwest of that British colony, as the area in which neutral powers were to refrain from moving their forces. Japan asked that 10 days' notice be given the Japanese command if "sheer necessity should compel" such movements.

Statements issued by the foreign office expressing the hope the powers will show "good sense" in keeping hands off Japanese activities in the south were regarded as directed primarily at Great Britain, who for more than a century has been the dominant foreign force in the Pearl river valley, economically controlled and dominated by Hong Kong.

At the navy ministry no effort was made to conceal the fact the new campaign will be on a major scale and will involve large forces of the Japanese army, navy and air force.

The foreign office spokesman said today Japan hoped the powers would control the movements of their own war vessels in the new war zone and expressed hope no "complications" would ensue.

There was some reason to believe the Japanese hoped for a rapid and relatively painless conclusion to the southern campaign. That is why they officially termed it a "purely military" operation, signifying thereby they do not intend to occupy south China permanently, as they have attempted to do in the north.

Forest Fire Havoc

Death Toll In Ontario And Minnesota Placed At 20

Port Frances, Ont.—Flaming forests filled the night sky with a red pall of smoke over northeastern Ontario as fresh outbreaks caused anxiety to weary fire fighters. But forestry branch officials said the menace, which already claimed 20 lives, is under control.

Eight women and 25 children were housed in a hotel at Stratton, 40 miles west of Port Frances, after they were advised to leave their homes. They will remain outside the danger zone until the morning.

A report said the town of Devlin, 25 miles west of Port Frances, was threatened by a fresh outbreak but provincial police here said their information was that Devlin was in no danger.

"The fire menace cut a swath 60 miles westward from Port Frances and 30 miles deep, stretching into northern Minnesota. Hundreds of thousands of dollars' worth of timber and cut pulpwood went up in flames. Beautiful farm homes, settlers' cabins, schools and stores are mere clumps of ashes."

Four bodies were found on the burned-over ground in the town of Devlin, under the menace of a fire spreading to the death toll in Ontario and Minnesota to 20. Twelve young children, three mothers and two men died in Devlin township, 50 miles northwest of Port Frances and centre of the holocaust.

Russia's New Defence Line

Is Being Constructed Along Western Frontier, States Report

Washington—Reliable reports that Russia is hastening construction of a vast artificial no-man's-land along its western frontier as a first line of defence against Germany have reached diplomatic circles here.

The information is that Russia, seeing the collapse of their efforts to force an international blockade against Germany, have dropped everything else in order to protect the Ukrainian wheat and coal fields from invasion.

A six-point program designed to slow down and finally halt an advancing army have been dovetailed into natural defences of distance and lack of communications.

Plans Apartment Centre

Winnipeg—Plans for a low-rental apartment centre, costing about \$1,400,000, were outlined by Mayor John Queen in a service club address. The scheme, Mr. Queen said, would be financed by loan from the Dominion government, and Winnipeg would take 35 years to pay for the building. Mr. Queen's plan will be submitted to city council.

To Prevent Rust

Dusting With Sulphur Results In Higher Yields

Winnipeg—Sulphur dusting of test plots of Thatcher wheat to prevent rust, resulting in higher yields and better grades, was outlined here before the annual meeting of the committee on grain standards.

Dr. W. F. Geddes, grain research chemist of the board of grain commissioners, and L. H. Newman, Dominion cerealist, Ottawa, outlined the experiment, reporting the favorable reaction and improvement in quality of Thatcher wheat, a rust-resistant variety.

Dr. Geddes said control of export standards of Canada's wheat has improved in the past two years and attracted favorable attention overseas. The crop this year is more uniform and better balanced than last year's crop, when drought effects were marked.

Ripened kernels characterized by a bronzy or brassy color was a peculiar condition found this year in wheat susceptible to stem or leaf rust, he said. The sulphur-dusting experiment improved color.

NEW FRONTIER IN CZECHOSLOVAKIA BEING DETERMINED

London.—An official map received in London disclosed Chancellor Hitler had carried his new frontier with Czechoslovakia forward to lines corresponding roughly to those of his Godesberg map which Prime Minister Chamberlain refused to accept.

The new frontier given Germany an area approximately equal to that of the Godesberg demands, although only in a few cases do the lines coincide with the Godesberg lines. There are variations of five to 10 miles either way throughout, some favoring the Czechs as compared with the Godesberg map, others favoring Germany.

At the Munich conference and afterward it was asserted in British quarters that Hitler had not gained all he asked of Mr. Chamberlain at Godesberg on the Rhine on Sept. 22.

The big four at Munich—Hitler, Chamberlain and Premiers Daladier and Mussolini of France and Italy—turned over to the commission the task of drawing the limits of the fifth zone. The commission consists of a German foreign office official as chairman, the British, French and Italian ambassadors to Berlin, and technically at least, a Czechoslovak envoy.

Germany's biggest gain, according to the commission's map, was made north of Prague, where the final settlement puts the border only 25 miles from the Czechoslovak capital and 10 to 15 miles south of Godesberg line.

On the other hand, the Czechs gained near Pilsen, where the frontier will not enter the actual town as all was expected to do. Similar changes from the Godesberg line favoring Czechoslovakia appear all along the south and southwestern frontier.

Another German gain is to the west of Machrisch-Ostrau, in northern Moravia, where the line passes through a large area in which Hitler originally demanded a plebiscite.

The feeling is growing in informed London quarters that Germany might be satisfied with the Czech concessions already embodied in the fifth zone and that plebiscites in additional territory might be waived. The commission's map, however, showed areas in which plebiscites might be held.

VETERAN WESTERN PUBLISHERS

Veterans in Canada's weekly newspaper field are these two Saskatchewan editors. On the left is 74-year-old Donald Dobar, editor of the Estevan Mercury since 1908, his companion is James Stoddard, 76, editor of the Tugueke Globe. Both got their start in Ontario, Mr. Dunbar as a writer and Mr. Stoddard with a Prescott weekly paper. This photograph was taken at the convention of the Saskatchewan weekly newspapermen in Regina.

ROYAL TOUR

KING GEORGE

The King and Queen plan to visit Canada early next summer and spend about three weeks in the Dominion.

Seeking Trade Agreement

Germany Anxious To Negotiate For Treaty With United States

Ankara, Turkey—Walter Funk, German economics minister, announced he intended to start trade negotiations with United States. Funk left for Berlin after concluding a trade agreement with Turkey.

In line with Germany's effort to line up southeastern Europe into her economic orbit, Funk negotiated a German credit of 150,000,000 marks (approximately \$60,000,000) for Turkey.

Germany expects to supply materials for new railroads in eastern Anatolia and for new factories for production of munitions, explosives, heavy chemicals and synthetic gasoline.

The German agreement with Turkey rivals an earlier credit of \$15,000,000 (\$60,000,000) granted Turkey by Great Britain before the Munich agreement dismembering Czechoslovakia.

Washington.—Officials handling United States foreign commerce said the United States would welcome a trade agreement with Germany, but not on the basis of the German system of trade.

Looking Forward To Trip

King George And Queen Elizabeth Anxious To See Canada

Ottawa.—The King and Queen are "greatly looking forward" to their visit to Canada next summer, his majesty said in a reply to a cable from Lord Tweedmouth expressing the joy of the Canadian people in the coming visit. The messages were made public here.

The Governor-General cabled the King:

"The Prime Minister has asked me to send to your majesty and to her majesty the Queen, with my humble respect, an expression of the great pleasure felt by himself and his colleagues at your majesty's gracious consent to visit Canada next year. The Prime Minister wishes me to assure your majesty that this news has been received with the most profound gratitude and joy by all your majesty's subjects in Canada."

The following reply was sent from Balmoral Castle:

"The Queen and I much appreciate the message from the Prime Minister conveyed by you. Please assure him that we are greatly looking forward to making the acquaintance of Canada and her people."

To Reduce Expenses

Main Shops Of C.P.R. To Be Closed For Period Of Three Weeks

Montreal.—Main shops of the Canadian Pacific Railway Company throughout Canada will be closed for three weeks, Oct. 24 to Nov. 14, it has been announced.

The decision was disclosed in a brief statement made public by the company:

"After a conference between the company's officers and representatives of its shop employees throughout the system, an amicable agreement was reached that all main shops will be closed for a three-week period—Oct. 24 to Nov. 14—rather than to effect reductions in working forces at the present time."

The announcement was made following a closed conference between company officials and representatives of 13,000 unionized shop employees who had been advised of plans for a part-time layoff to reduce expenses.

Committed For Trial

Leeds Telephone Operator Charged With Turning In Air Raid Alarm

London.—A telephone operator, William Wood, 26, was committed for trial at Leeds on a charge of public mischief—specifically telephoning a secret code warning of an "air raid" in the recent international crisis. Thousands of defence workers piled out of bed around midnight that night and 40 air raid precautions centres, police stations and fire departments of West Yorkshire prepared for action. The summons was a hoax.

NAZI WARNING ABOUT METHODS OF CARDINAL

Vienna.—Nazis warned "an end must be put to the methods of Theodor Innitzer" in a warning published in the Nazi organ, Wiener Neueste Nachrichten, under the signature of the paper's managing editor, Walter Petwaidl.

"Now at last an end to the Innitzer methods," said the leading article's headline which ran across the first page.

It was the first editorial cognizance Nazis have taken of Cardinal Innitzer's sermon and the subsequent storming of his palace which resulted in broken windows, much interior damage, a wound to the cardinal from a thrown stone, and injury of one of the capons.

The same newspaper made the first reference in Vienna newspapers to "the incidents on Saint Stephen's Place," in a report of a Nazi party meeting spearheaded by Burgomaster Hermann Neubacher. The burgomaster rebuked the cardinal for a remark that there still are young people who "are not so easily tempted to listen to deceitful catchwords and hypocritical rhetoric."

Neuste Nachrichten's sharp attack said:

"We are going on our way even without the consent of the last adherent of Austrian clericalism who has not found his way out in these times."

"We do not intend, however, to permit ourselves to be continuously in a state of anger. We are going to put to the test the nerve of the Herr Cardinal who first shows a velvet hand in readiness to talk things over and then incites political quarrels."

This was taken as a reference to Innitzer's attack on Anschluss of Austria and Germany last March and his letter to Nazi officials which he signed "Hell Hitler"—a departure from the custom of German bishops. He also urged Austrian Catholics to vote for Anschluss in the plebiscites that followed.

"We do not intend that people reacted with loud ill-humor" to the cardinal's sermon, Neuste Nachrichten went on.

"It is especially bitter to us that a high Catholic dignitary showed and courage to attack the fuhrer in an indirect way in a speech before a couple of dozen anemic Catholic priests, organized in a silly speech and provoked the people at the very moment our troops were taking possession of the Sudetenland—at last liberated by the fuhrer—in the name of the reich and the German community."

The editorial was not the only evidence of Nazi displeasure.

The last issue of the Kirchliche Wandzeitung, a diocesan publication displayed on bulletin boards outside churches, was seized. No reason was given for the confiscation. The one-sheet paper usually contains nothing more than short notices to parishioners.

FACTORS THAT WORK AGAINST PEACE OF WORLD

Paris.—The German language weekly newspaper Die Zukunft carried an article signed by Alfred Duff Cooper in which the former first lord of the admiralty declared Germany's Nazi regime prevented German and British people from working together for peace.

The article, featured in the anti-Nazi weekly's first appearance in Paris, said many in both France and Britain believed Prime Minister Chamberlain gave in too much to Chancellor Hitler in the Czechoslovak crisis.

"It is difficult to see how peace can reign between Christian people and the Nazis," wrote Mr. Duff Cooper, who quit his British cabinet post in protest against Mr. Chamberlain's foreign policy.

"But I believe in the bottom of my heart that peace can reign between all civilized peoples."

The article continued: "The English people look to the future. They are aware that Chancellor Hitler, whose demands are increasing endlessly, will some day create a situation the inevitable result of which will be war."

"The people of Great Britain feel that war can be avoided only with the aid of its real ally—that is, the German people. The people of Great Britain have no aversion for the German people, but only for the present Nazi regime, which they deeply distrust."

"The people of Great Britain are champions of liberty. . . . The British Empire is composed of men of many races and many creeds. The principle of the empire is that the same law shall be applied to all men, whatever their religion or race."

"The Nazis believe there is only one race worthy of possessing the world. They have invented a race which they call 'Aryan' and which real scientists do not recognize. This 'Aryan' race, say the Nazis, has the right to persecute other races. . . ."

"The Nazis reject charity, grace and humility and declare them imported from the Orient. They condemn the race to which the founder of the Christian religion belonged and declare it unworthy of enjoying civil rights."

"It is therefore difficult to see how peace could ever reign between the Christian peoples and the Nazis. But I believe from the depth of my heart that peace can reign among all civilized peoples."

Farm School Scholarships

Awarded To 50 Young Men Chosen By Committee

Saskatoon.—From hundreds of applications received, a joint committee of University of Saskatchewan, provincial and federal men have selected 50 young men who will be awarded Dominion-provincial youth training scholarships enabling them to attend a five-month course at the university farm school this winter. Professor R. D. Ramsay announced the names of the successful contestants. He explained that the scholarship in each case would be \$150, which amount would help defray the costs of board, transportation and books for the students attending.

Spanish War Casualties

2,657 Italian Officers And Men Have Been Killed

Rome.—Italy announced that 2,657 Italian officers and men had been killed in the Spanish civil war "from the beginning of operations in Spain until Oct. 10," and that an additional 278 had died from service causes.

The communists listed 12,147 officers and men as killed, wounded, or missing in the war. The wounded were permanently crippled or made invalid.

Avon Castle Sold

London.—Avon Castle, ancestral home of the Earl of Egmont, Alberta's "franchised peer," has been sold to H. J. Colebrook, wealthy London surveyor. The purchase price is reported to be in the neighborhood of \$378,800, the original cost of the castle, which was built in 1878.

War Scare Cost Money

London.—Emergency defence measures taken by the British during the war scare caused by the recent European crisis cost the country more than \$25,000,000 (\$125,000,000). The Evening News (Liberal) estimated.

BELLEVUE EXHIBITION

1938 PRIZE AWARDS

Following are the awards made in connection with the 1938 exhibition of the Bellevue and District Horticultural and Industrial Society, held at Bellevue arena on Labor Day.

Major Prizes

For most points in needlework: Mrs. H. Harrison, second.

Most points in culinary: Mrs. F. Gilroy.

Most points in outdoor-grown produce: J. T. Clayton—Bellevue Horticultural Society cup.

Most points in indoor-grown produce: F. Padgett—Royal Bank cup and medal.

Most points in flower section: J. T. Clayton—Reader cup.

Best project by intermediate or high school student: A. Rosko, Bellevue—T. Schmiedl cup and miniature.

Best garden display of vegetables: J. T. Clayton, first; Joe Dowson, second.

Best collection of vegetables: N. Spooner, first; R. Glover, second; G. W. Goodwin, third.

Class Prizes

Potatoes, round white: J. T. Clayton, first and second; R. Glover, third.

Potatoes, round and/or red: R. Glover, first; H. Hayson, second; S. T. Humble, third.

Potatoes, kidney white: R. Glover, first, second and third.

Potatoes, kidney colored: S. T. Humble, first and third; J. T. Clayton, second.

Collection of potatoes: S. T. Humble, first; R. Glover, second; J. T. Clayton, third.

Any variety of potatoes: S. T. Humble, first and second; R. Glover, third.

Marketable potatoes: S. T. Humble, first; R. Glover, second; Joe Dowson, third.

Cauliflower: G. Cousens, first; Joe Dowson, second.

Conical cabbage: G. W. Goodwin, first; E. E. Saylor, second; Joe Dowson, third.

Flat cabbage: G. Cousens, first; R. Glover, second and third.

Round cabbage: A. E. Saylor, first and second; G. Cousens, third.

Savory cabbage: S. T. Humble, first and second.

Red cabbage: Joe Dowson, first; G. Cousens, second; G. W. Goodwin, third.

Curly kale: N. Spooner, first and second; A. Cawsey, third.

Kohl rabi, white: R. Glover, first and second; J. Curry, third.

Kohl rabi, blue: G. Cousens, first; A. Cawsey, second; R. Glover, third.

Swede turnip: J. Robinson, first and second; A. Cawsey, second.

White turnip: A. Cawsey, first; J. T. Clayton, second; G. Cousens, third.

Yellow turnip: G. Cousens, first and second; G. W. Goodwin, third.

Long carrots: J. Morris, first; N. Spooner, second; G. W. Goodwin, third.

Short carrots: G. Cousens, first; A. E. Saylor, second; James Boyle, third.

Intermediate carrots: N. Spooner, first and second; G. Cousens, third.

Leeks: J. Dowson, first and third; N. Spooner, second.

Onions, from: J. Robinson, first and third; R. Glover, second.

White onions: W. G. Goodwin, first; G. W. Goodwin, second; N. Spooner, third.

Red onions: J. T. Clayton, first; G. W. Goodwin, second and third.

Yellow onions: W. G. Goodwin, first and second; G. W. Goodwin, third.

Shallots: S. T. Humble, first and second; N. Spooner, third.

Multiplex: S. T. Humble, first; R. Glover, second and third.

Pickling onions: R. Glover, first, second and third.

Long beets: G. W. Goodwin, first; J. Dowson, second; J. T. Clayton, third.

Any other variety beets: J. Robinson, first; I. Hayson, second; R. Glover, third.

Paranip: J. Curry, first and second; J. T. Clayton, third.

Salaty: J. Curry, first and second; N. Spooner, third.

Radish: A. E. Saylor, first; A. Cawsey, second; James Boyle, third.

White celery: G. W. Goodwin, first; A. Cawsey, second and third.

Red celery: Joe Dowson, first; G. W. Goodwin, second and third.

Curled lettuce: J. Dowson, first, second and third.

Cabbage lettuce: G. K. Sirett, first and second; W. G. Goodwin, third.

Collection of peas: J. T. Clayton, first; W. G. Goodwin, second; G. W. Goodwin, third.

Long pods broad beans: J. Curry, first; A. E. Saylor, second; J. T. Clayton, third.

Pods wax beans: Jas. Boyle, first; R. Glover, second and third.

Pods dwarf green beans: J. Dowson, first and second; J. T. Clayton, third.

Pods runner beans: D. Morris, first; J. Curry, second; J. T. Clayton, third.

Short pods broad Windsor beans: D. Morris, first; G. K. Sirett, second; A. Cawsey, third.

Frame cucumbers: G. Cousens, first; J. Curry, second; G. K. Sirett, third.

Rhubarb: G. W. Goodwin, first and second; G. K. Sirett, third.

Swiss chard: A. Cawsey, first; J. Curry, second; James Boyle, third.

White vegetable marrow: James Boyle, first; W. G. Goodwin, second; G. Cousens, third.

Green vegetable marrow: G. Cousens, first; N. Spooner, second; G. K. Sirett, third.

Pumpkin: Fred Padgett, first; G. Cousens, second; J. Curry, third.

Sweet corn: J. Curry, first; G. K. Sirett, second and third.

Farsley: B. Milnes, first; J. Boyle, second; G. W. Goodwin, third.

Mangel wurtzel: Robinson, first and third; J. T. Clayton, second.

Collection of herbs: J. T. Clayton, first and second; S. T. Humble, third.

Peppers: G. Cousens, first; S. T.

first; Mrs. J. Curry, second; G. K.

Sirett, fourth; Allan Ritchie,

fifth.

Industrial and Arts

Hand metal work: T. Schmiedl,

first, second and third.

Hand wood work: T. Schmiedl,

first, second and third.

Metal and wood work combined: T.

Schmiedl, first.

Arts for school children: Grade 1,

Maple Leaf (F. Turner), first; Grade

4 and 5, Bellevue (Joe Morris), sec-

ond; Grades 1 and 2, Maple Leaf (Er-

nestine McDonald), third.

Special: Grade 6, Maple Leaf (G.

Clayton) and Grades 2 and 3, Bellevue

(E. Price).

Ladies' Section

Rag rug, hooked: Mrs. S. T. Hum-

ble, first; Mrs. J. Dowson, second;

M. Gibeau, third.

Other kind of rug: Mrs. W. Jal-

ley, first.

Man's hand-made socks: Mrs. S.

Price, first; Mrs. Humble, second;

Mrs. A. Gibeau, third.

Collection of fancy novelties: Mrs. S.

Price, first.

Embroidered lunch set: Besie

Passmore, first; Mrs. H. Harrison,

second; Mrs. A. Ritchie, third.

Colored embroidery work in heavy

or fine cotton: Miss B. Radford, sec-

ond.

Colored embroidery work in stand-

ard silk: Mrs. H. Harrison, first.

Cross-stitch embroidery: Mrs. H.

Harrison, first; Miss B. Radford,

second.

Applique: Mrs. H. Harrison, first.

Embroidered towel: Mrs. H. Har-

rison, first and second; Mrs. Humble,

third.

Crochet work in wool: Miss B. Rad-

ford, first; Mrs. Ben Milnes, second;

Miss Jessie Radford, third.

Crochet work in cotton: Mrs. S.

THE ABERHART BROADCASTS

Mr. Aberhart last Sunday indulged in his usual political propaganda, favored this time with a little extra revilement of certain "degraded" newspapers. How dare they say anything out of accord with his views? "I am Sir Oracle, and when I open my mouth let no dog bark." The wicked predatory bankers escaped this time. How relieved they must be. It was noticeable, however, that his harangue was markedly lacking in the bombast and arrogant assurance which characterized his 1928 campaign. It is significant, too, that nothing definite was said about the overdue \$25 dividends; nor about the wild, and still unfulfilled promises which won the election for him and his party. On these points the silence was quite profound. The "stooge" asked no embarrassing questions.

The exhortation to "Trust God and do the right," was, of course, intended to impart a religious flavor to the daring and nauseous Sabbath mixture, but it would deceive no one, except, perhaps, dyed-in-the-wool fanatics.

In the light of the encroachments upon the sanctity of the Lord's Day through inordinate greed and pleasure, the intrusion by Mr. Aberhart of partisan political propaganda is a most serious thing, tending, as it does, towards the profaning of the day and the breaking-down of its defenses.

Does "social credit" really require desecration of the Lord's Day in its propaganda? Surely not. Then why is the day so used?

In Germany, there is an attempt being made to trample Christianity and the Ten Commandments under foot, and to throttle human freedom.

But this is Canada, and the time has fully come when every encroachment upon human rights, and every invasion of institutions that are fundamental in the life of our nation needs to be sternly resisted.

The integrity of all our free institutions, including that of the press, our courts of justice, and the Lord's Day must be maintained.

We cannot afford to allow these bulwarks, which constitute the strength and glory of the British Empire, to be weakened or destroyed by political demagogues.

Our Canadian air was never intended to serve as a purpose. How much longer will the C.B.C. allow it to be so used?—A.D.M. in Calgary Herald.

LOCAL AND GENERAL ITEMS

Mr. A. Clark is now chef at Carl's Cafe.

Our first real snow, on Sunday morning, lasted but a few hours.

Even the "big apple" serves a purpose. It is driving people away from dances.

Miss Olga Yanota has returned to Calgary, after a few days visit with her parents here.

It must have revived Mr. Aberhart somewhat to hear a really clever speaker at Edmonton a few days ago.

Politics in this country today isn't so much a case of what a candidate stands for as what the voters fall for.

Clarence H. Tade, former successful candidate in his riding, has been chosen to contest the Athabasca by-election as a Social Creditor.

Fred Gilroy, who has been retired from the position of assistant agent at Hillcrest C.P.R. station, is being succeeded by J. P. Martin, of Calgary.

The Lethbridge Herald remarks: There is more than a suspicion that Mr. Tade told Mr. Aberhart he was going to be the Social Credit candidate in Athabasca, "or else —"

Rev. Fathers McKenna and Knappick, of the Redemptorist Fathers, Calgary, who have been conducting a mission at Holy Ghost church in Coleman for the past two weeks with great success, will commence a similar mission at St. Anne's church here, with first services on Sunday.

The following advertisement appeared in an Ontario weekly newspaper last week: "Are you unemployed? Social Credit assures every able-bodied person a living and every physical unemployed person a pension." Maybe they're away with the bluff in Ontario, too.

Rev. Dr. Charles Endicott, of Saskatoon, has been appointed to succeed Rev. Dr. Peter Bryce as secretary of the United Church of Canada Missionary and Maintenance Fund. He is a brother of Very Rev. Dr. James Endicott, who was second moderator of the Church and former secretary of the Board of Foreign Missions.

A petition containing about 1,500 signatures, and asking that Vincent Macchione's death sentence be commuted to life imprisonment, has been sent to the governor-general, Lord Tweedsmuir, by Clement Carmichael, counsel for the condemned man. Macchione is sentenced to hang October 26th for the murder of Michael Hudock, railway section hand, near Fernie three years ago.

The editor of the Stavelly Advertiser recently visited Aberhart's tabernacle at Macleod and next day, to show the after effects of what the corked bible contained, his paper appeared with half the items upside down. Asking where the tabernacle was, a friend advised him to proceed in a certain direction and watch for Alberta's coat of arms, plus the letters "A.L.V."

Remember the Board of Trade rally at the Grand Union hotel, Coleman, on Monday next, at which Mr. C. E. Stockhill, assistant to the vice-president of the C. P. R., Winnipeg, will be guest speaker. Secure your banquet ticket now through Mr. L. L. Morgan, or telephone Mr. W. L. Rippon, Bank of Commerce, or H. T. Halliwell, Coleman. All business and professional men are invited to be present.

Robert Charles Young and Earle Herbert Davison, of Edmonton, and Albert Arthur Henry Reilly, of Calgary, have been appointed investigators for the purpose of obtaining information for use of the minister of trade and industry, or of any advisory board or committee, as to any matter or thing relating to any business, trade, industry or occupation carried on in the province whenever directed by the minister to do so.

Harry Shearer is reported quite ill at his farm home near Barons.

The T. Eaton Co. will erect new premises at Edmonton, to cost in the neighborhood of \$500,000.

It's too darned bad that the Alberta government cannot be accorded support from the financial barons to the same extent as that accorded the Alberta Weekly Press.

For robbery of \$300 from a store at Craigmyle, Robert Earl Cook, 29, of Manitoba, was sentenced to four years in Prince Albert penitentiary.

A large school unit has been formed, embracing all rural schools along the Waterton highway and west to Beaver Mines and Passburg.

An accident happened on the highway near Burnis last night, in which a Blaimore car collided with a standing truck when about to meet a passing car. The occupants of the car escaped with but minor injuries.

Miss Margaret Jean McDonald, daughter of Mr. and Mrs. J. O. C. McDonald, of Coleman, left this week for Victoria, B.C., where she enters upon duties as assistant dietitian at the Royal Jubilee hospital.

NOT THE REPORTER

Every newspaper at some time or other, has been accused of misreporting a speaker, usually in some case where the speaker has been delivering an extemporaneous address and is taken to task for some judicious statement. Our experience is that the reporter is very rarely wrong. He is working at his job and his job is to report what he hears. As a rule he has no interest in the address other than telling the public through the paper what the speaker said. It is almost invariably the case that it is the speaker who is mistaken rather than the reporter, and he uses this excuse to get himself out of his difficulty.—Carleton Canadian.

Laying for the EAST

The East Likes Western Poultry to the Tune of Nearly \$2,000,000 a year

Not only do Western hens lay for the East to the extent of over 50,000,000 eggs a year, but over 6,000,000 lbs. of them, and their consorts, go East in person to grace the dining tables of Eastern industrial workers.

The East needs the West to feed it. The West needs the East as a market for its produce; so the two work together — the East by spending over \$40,000,000 a year with the Western farmer, and the West — by buying Canadian-built cars.

And that's a point worth remembering, for every car bought in the West helps not only the food-consuming automobile worker — it keeps men working and on payrolls in the rubber, paint, glass, steel, parts, chemicals and many other Eastern industries, to the ultimate advantage of the Westerner himself.

For statistical and further information about this industry, write to Automotive Industries, 1006 Lumden Building, Toronto.

A Castle In Wales

Property Of Wm. Randolph Hearst Is Up For Sale

Down in South Wales on a promontory overlooking the Bristol Channel is a beautiful old castle, which has been turned into a most luxurious modern residence. It is called St. Donat's, and it belongs to William Randolph Hearst. He bought it some 13 years ago—just from a picture he saw of it in an English magazine, it is said—and he spent what would be a fortune to anyone else in modernizing it.

Now he is trying to sell it, having paid to it in the meantime hardly more than half-a-dozen visits of a fortnight or so. It seems a very small return in enjoyment on so vast an outlay.

When Hearst first bought the castle—for something like £25,000—the Society for the Preservation of Ancient Monuments became rather worried as to what he was going to do with it, for its history goes back to the twelfth century. Its original builders were the Esters family, who came over from Normandy in 1066, hard on the heels of the Conqueror.

These fears as to Mr. Hearst's intentions proved groundless. He made great changes, of course—he had to, to make the place habitable—but even hostile critics had to admit that the changes were in admirable taste. The preservers of ancient monuments should, in fact, be grateful to him. Without him the old castle would probably have become a hopeless ruin.

What Mr. Hearst did was to turn St. Donat's into a superb modern residence, while carefully preserving its features as a medieval fortress. It is wonderfully equipped. There are more than ninety rooms, of which some thirty-odd are bedrooms, each with its bathroom. The huge baronial dining hall seats more than 200. And the whole place is filled with art-treasures of every conceivable kind. Moreover, the castle stands in a park of 2,000 acres or more, which contains among much else a private golf course. In the old fighting ground is still swimming pool in the whole country.

And all this has been maintained just as if the owner were in residence. The golf course has been mown and tended, the water in the swimming pool has been kept at the same temperature winter and summer, even the log-fires have flamed and smoldered in the huge, ancient fireplaces. All ready, and all waiting, but except for the caretakers and guardians, as silent and empty as an enchanted castle in a fairy-tale. It is one of the queer fantasies of vast wealth—P. O. V. in Toronto Saturday Night.

Gos, Portuguese India, has the world's cheapest stamps. They sell for 12 for a penny, and the purchaser must supply his own mucilage.

It is said that our intelligence ceases to grow at the age of 14 and begins to decline at the age of 35.

A JUMPER FROCK THAT'S NEWS

By Anne Adams

"What's the most popular juvenile fashion?" The answer, of course, is Jumper Dresses—and THIS is the newest, sweetest edition of them all! Get an order in for Anne Adams Pattern 4659 immediately, and you can make up several versions in time for school days. There's a Sewing Instructor included that explains systematically what to do and when—It's simple to stitch up this jaunty, panel-type jumper, and blouse! For the classroom choose warm flannel or serge. Daughters will be for plenty of cotton blouses to be "changeabouts!"

Pattern 4659 is available in girls' and junior sizes 6 to 16. Size 12 jumper, takes 2 1/4 yards 36 inch fabric; blouse, 1 1/4 yards 36 inch fabric and 1/4 yard ribbon.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number and send order to the Anne Adams Pattern Dept., Winnipeg, Newpapers Union, 175 McDermott Ave. E., Winnipeg.

About one-half of the population of Canada is found south of the northernmost point of Minnesota.

According to scientists the human heart contracts 100,000 times daily.

Money Was Not Wasted

Britain Does Not Regret Millions Spent On Preventing War

It is reported from London that the British Government spent £40,000,000 (\$200,000,000) on military preventive measures during the Sudeten crisis. The public felt that the money was not wasted.

In one respect it was. On the surface there is nothing to show for it. Yet the expenditure of that sum probably prevented a war which would have cost billions of dollars; that might have drained the national treasury and emptied the pockets of every man, woman and child in the country; that would have left the country so economically flat that it might not recover for a hundred years.

The preliminary preparations for war cost the country \$200,000,000 without a shot being fired. Over a term of years the Great War cost Britain \$5,000,000 a day. Similar preparations must have cost France, Russia, Czechoslovakia and a number of small adjacent countries several hundreds of millions in the aggregate. But it was money well spent. On one side was an array of forces which would have struck with terrible effect if the nations on the other side had not matched it with even greater forces. The result was the countries threatening war were afraid to strike and there was no war.

Yes, the money spent by the non-aggressor governments was well spent.—St. Thomas Times-Journal.

Chewing Gum

Now An Integral Part of Royal Air Force Rations

Chewing gum which started British jaws clicking secretly years ago has made a sponsored public appearance in a showcase at the Imperial Institute's galleries in South Kensington.

The dissoluble masticatory once called a "beasty American habit" has been dignified as an integral part of the Royal Air Force emergency rations and a muscular stimulant used by long-distance flyers to keep them alert.

The exhibit appears in the British Honduras Club of the Institute's display, mainly because the raw material, chicle from the bulky tree, is the colony's second most important export. Mahogany is first.

The exhibit, using photographs and samples, traces the evolution of the gum habit from its source in the dark forests of tropical Honduras to shop windows in the United Kingdom. Gum is used in hospitals in London for gastric complaints, some mouth and throat troubles and in the recovery stages of some children's ailments.

Gum chewers can be seen in London's streets, but the British chewer doesn't snap it.

An economist remarks that the trend of modern invention is to make work lighter. Personally, we would like to hear of one that will make a lighter work.

Erosion has changed the surface of the earth more than the combined effects of earthquakes, volcanoes, tornadoes, landslides and glaciers.

An astrologer in London declares he has devised a system of backing race horses by the stars.

SUNDAY SCHOOL LESSON

OCTOBER 23

OUR DAY OF REST

Golden text: Remember the sabbath day, to keep it holy. Exodus 20:8.

Lesson: Exodus 20:8-11; Isaiah 58:13, 14; Luke 13:10-17; Galatians 4:8-11; Colossians 2:16; Revelation 1:10.

Devotional reading: Psalm 81:4.

Explanations And Comments

The Fourth Commandment: Reverence God's Day, Exodus 20:8-11. The root meaning of the word rendered hallowed in verse 11 is to separate; the Sabbath day is to be separated from other days in the way it is spent.

Six days shalt thou labor, and do all thy work. There are many persons whose difficulty in keeping the fourth commandment lies right here—they are too lazy to work the six days. The commandments lay stress upon working as well as upon resting. "Every man is as lazy as he dares to be" is an oft-repeated saying which is not without some measure of truth. "Life without industry is declared to be a curse." The tragedy of many a life is that time is not felt to be a trust for whose use one must temperately.

The seventh day is to be distinguished from other days by abstinence from labor. "The Sabbath was made for man," declared Jesus, as we learned in a lesson of the first quarter.

The reason given here for the distinction to be made between the first day and the seventh is that God himself labored six days and rested the seventh day: "Wherefore Jehovah blessed the seventh day and hallowed it," separated it from other days for special holy uses. The day should recall to mind thoughts of God the Creator and the duty of striving to be like him. Another reason is given in Deuteronomy 5:15: "because of thy creation for six days and rested the seventh day." It is emphasized on the ground of gratitude to God the Creator for his people from their slavery in Egypt.

Blessings of Sabbath-keeping, Isaiah 58:13, 14. The prophet is sure that Sabbath-keeping will lead to prosperity, and he bases his plea for its observance upon its Godward aspect, as an act of homage to Jehovah. That argument still stands. One day out of seven is surely not too much to give to God nor to devote to the high purposes of rest and worship in order to come to a further understanding of life and duty. For want of giving more time to these purposes life has become sordid and well-nigh meaningless to multitudes of people. Long experience has verified the truth of the Isaiah emphasis, that there are few things which we can do that are really more uplifting than one of turning this one day in seven to the higher purposes for which it was intended.

What we do with the day will be to serve our own best and holiest interests.

A Paying Venture

Farmer Figured Up How Cat Saved Him Money

An article by Lois M. Marnon in "Our Dumb Animals" says several years ago a tenant farmer moved on to a place overrun with mice and rats. Not only the house but the fields were full of them. In a walk through the fields a dozen mice could be seen in a few minutes' time. In the house it kept the man and his wife busy setting and re-setting mouse traps—especially on an evening.

Finally, in self-defense, the farmer got a male kitten from one of his neighbors. The kitten was given good meals regularly, treated kindly and given good training. On going to the fields the farmer would take the kitten with him to nose around in mousey places. From the first the cat proved a good hunter.

The farmer has had the cat for six years now, and the other day he figured up just how well the cat had repaid them for a good home. Making a very close estimate, based on 2,000 days, of the number and kind of pests kitty had caught and what each pest living would have cost the farmer in grain, destruction to buildings, fields, etc., he found out that it amounted to a total of \$805, or a little over \$134 a year. That is what it paid this farmer to keep a cat.

Wear Distinguishing Badge

Police-men of Ostend, Belgium, who speak English will hereafter wear a miniature Union Jack on the left arm. The innovation was made primarily to help British tourists, but the officers will assist all other officers who speak Flemish only.

The summit of Mount Everest, highest point of land in the world, would be one and one-fifth miles under water if placed in the deepest part of the ocean.

According to a weekly paper, castor oil comes from the castor bean. Even so, what Smith Minor really wants to know is, Why?

Orchid seeds are so tiny that hundreds of them could rest on a pin head.

Turkey has constructed 1,810 miles of railways and 75 bridges since 1925.

Once you sweeten your morning cereal with BEE HIVE Syrup you'll know how good cereal can taste.

TRY IT TOMORROW

Sir Horace Wilson

The Man Who Took a Hand In The European Crisis

In days of apoplectic European diplomacy a mild little man, immaculately dressed, sat beside Neville Chamberlain in the fateful councils of the British Cabinet and at times flew to Germany as the Prime Minister's personal emissary to Adolf Hitler.

The role of Sir Horace Wilson has been somewhat mysterious since he was drafted two years ago "for personal service to the Prime Minister."

Political circles say that "personal service" now includes foreign affairs and that the "mysterious H. J." is Chamberlain's most influential adviser and "personal brain trust." And it's common talk that the blue-eyed, round-shouldered little man of 56 has taken a hand in the Central European crises.

Sir Horace entered the civil service in 1903 at 480 a year. He was not a university man and apparently would stay in the "second division" all his life. But he was noticed by a former industrial commissioner who got him a place in the new Labor ministry in 1918. Wilson made a record as a strike mediator.

Shortly after the close of the war, an important strike drew comment from Prime Minister Lloyd George. "What happened to our strike-breaker?" the Prime Minister inquired.

Told that Wilson wasn't working on strikes, Lloyd George changed things. In 1921, Wilson became permanent secretary of the Ministry. In 1924 he was knighted.

He became known as the mildest, most patient labor mediator in history. Both workers and employers liked him. When the depression came, Prime Minister Ramsay MacDonald made him chief industrial adviser.

Sir Horace then sweated through problems of foundering industries; got them more capital if he felt them to be deserving. He moved colonies of workers to more prosperous towns. Then, Neville Chamberlain brought Sir Horace to No. 10 Downing Street, the middle of the Empire. When Mr. Chamberlain became Prime Minister, Sir Horace was at his right hand.

"Meandering land" is the land bordering rivers or lakes with irregular shores which are likely to change in time.

Mrs. Grover Cleveland received the first parcel post package in the United States.

Phaenids, curious insects of New Guinea, blend with their surroundings, camouflaged as leaves.

Health LEAGUE OF CANADA presents TOPICS OF VITAL INTEREST by DR. J. W. S. McCULLOUGH

Editorial Note: Readers desiring the complete set of Dr. McCullough's cancer articles, one may secure same by writing The Health League of Canada, 105 Bond St., Toronto, Ont.

THE WAR IN CHINA — FORMER REBELS NOW LOYAL

Life with the Eighth Route Army in Hopei is illustrated in this photograph. The Eighth Route Army was formerly the Communist Army which waged war against the Central Chinese Government for ten years, but in the face of the danger from Japan placed itself at the service of General Chiang Kai Shek. To stimulate the spirit of resistance against Japan, the Eighth Route Army holds meetings similar to the one in the photograph.

Help improve your personality with Wrigley's Gum. Keep your teeth white, breath sweet, by using Wrigley's Gum daily—as millions do. The children also love the delicious refreshing flavor of Wrigley's Double Mint. Take some home today!—25¢

WORLD HAPPENINGS BRIEFLY TOLD

A decree issued in Vienna forbade Jews to attend any public sports events as spectators.

Lord Hawke, 78, famous old-time Yorkshire batsman and noted cricket authority, died in London recently. The Countess of Ashburnham died at her home in Fredericton, N.B., following a heart attack.

The German government decreed the reichsmark henceforth would be the legal currency of the Sudeten territory.

Twenty persons were killed when a Belgian airliner lost a wing in mid-air and fell in flames near Soest, in northwestern Germany.

The agriculture department estimated this year's United States wheat crop at 940,229,000 bushels. Corn production was forecast at 2,469,816,000 bushels.

Bones of a giant horse and dwarf buffalo were discovered in South African caves by scientists seeking further trace of man's purported ape-like features.

Sir Kingley Wood, British secretary for air, announced establishment of a new £1,000,000 (£50,000) aircraft factory and expansion of existing production facilities for military planes.

D. de Waal Meyer, first accredited representative of the Union of South Africa to Canada, has arrived in Ottawa to assume his new duties. His position is substantially the same as that of high commissioner.

Locates Planes Off Beam

Device Funnels Air Base To Immediately Inform Pilots Of Position

The close link between communication and transportation was shown by Dr. P. B. Jewitt, president of the Bell Telephone Laboratories of New York, when in an interview at Toronto he announced development of an instrument which will make possible immediate location of aircraft which have flown off the radio beam they have been travelling.

The device, activated by a cathode ray tube, he stated, shows the location of airplanes in relation to their direction from the point where it is stationed. Although confined to laboratory experiment thus far, its performance has been faultless under the most rigid tests, and he believed it would be widely adopted in the field of commercial aviation if further tests bore out its efficacy.

A quantity of the instruments, he understood, was on order for Trans-Canada Airlines, and he expressed the opinion that, "unless we find some bugs in it," the device would play an important part in assuring the safety of airline ships and passengers.

At present, he explained, pilots who have flown off the beam, particularly in the vicinity of airports, where the "cone" is narrow, have difficulty in learning their positions. The new device consists of a frosted glass "dial" marked off in quadrants of a circle. The moment the lost aircraft begins operating its radio transmitter a spot of light appears on the dial, pointing out the direction of the aircraft from the landing field. The equipment is designed to be housed at the air base.

By using two such instruments, he explained, cross-bearing can be taken on the aircraft and the pilot may be informed almost instantaneously of his exact location.

Doctors and preachers have the same trouble. They can't do much for people who think they know everything.

Ice crystals five to 10 inches in diameter have been found in the Antarctic.

When danger threatens, the parent grebe tucks its young under its wings and dives under water.

DRESSED FILLETS OF HADDOCK

1 cup of milk
1 tablespoon of minced
2 cups of ground old Can-
adian cheese
2 tablespoons of butter
fresh chopped parsley
Prepare a white sauce with
the butter, the flour, the
milk, and the cheese. Season
with salt and pepper. Add
the cheese. Pour over each
piece of fish. Sprinkle
with chopped parsley. Place
in well buttered oven dish,
and cook 20 minutes in
moderate oven. Fillers of
any other kind of Canadian
Fish may be used instead of
Haddock fillets.

THE KIDDIES' EYES will sparkle when you bring in an appetizing platter of Fish. It's a dish fit for a king, with its delicious, palate-pleasing flavour... yet so inexpensive that you will have money left over for extra meal-time treats.

You can enjoy Canadian Fish and Shellfish all the year round — over 60 different kinds — fresh, frozen, smoked, dried, canned or pickled... as often as you wish. Many tempting recipes make it easy for you to offer delightful variety to hearty appetites.

Local and General Items

The Editor will be glad to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, showers, presentations, anniversaries, etc. Phone items in to 11 or hand them in at The Enterprise office not later than Thursday evenings.

Gaming clubs have been ordered closed in Drumheller.

Several auto accidents were reported over the week end, with but slight personal injuries.

Several fish were drowned in a beaver dam near Burmis last week. The water came too high for them.

Listening to Able on Sunday afternoon, a local radio fan laughed out loud and sang "Oh, another little puff wouldn't do 'im any harm!"

Dr. R. J. Manion, new leader of the Conservative party in Canada, will be guest speaker at a Canadian Club luncheon in the Palliser hotel, Calgary, at noon on Monday next.

There isn't anything in Alberta doing less good in the run of a week than Aberhart's broadcast. His lit the audience, hasn't the pluck to tell him to cut it out.

According to the rules governing the new credit houses, the government stands to know a great deal about a merchant's business, if he is to deal with the credit house.

People in the Bible Institute at Calgary on Sunday, endorsed Mr. Aberhart's claims at the press, but we doubt if any one of them could actually realize just what he was talking about.

We lent our copy of Aberhart's 200,000-word "brief" to Bellevue a couple of weeks ago. It was returned on Monday of this week and looks as though someone had taken a glance at the cover. The leaves show no signs of having been turned.

The engagement is announced of Miss Mary Louise, second daughter of Mrs. Blanche Bond, of High River, to Alexander Robert (Bob) Niven, only son of Mr. and Mrs. Alex. Niven, of Lethbridge, the marriage to take place early in November.

Parties who decided to end the fishing season up the north and west reaches of the Livingstone and Northwest Branch rivers, returned over the week end and reported fairly good luck. They would have suffered considerably from the cold, travelling in open cars, had it not been for an occasional flat tire or blowout, which they considered good-luck.

The sincere tribute paid to the weekly press by The Calgary Daily Herald in their last Tuesday's issue will be appreciated by every weekly newspaper editor in Alberta. The Herald practices what it preaches in this respect by providing a generous space every week to quote editorials from the weekly papers, while the Herald uses the weekly papers as an advertising medium from time to time.—Ex.

The marriage of Miss Janet, third daughter of Mr. and Mrs. Joseph McLean, of Bellevue, to Albert Joseph, elder son of Mr. and Mrs. Albert Olson, of Blairmore, was solemnized at the United church manse, Bellevue, on Tuesday evening. Following the ceremony, a wedding luncheon was served at the home of the bride's parents, following which a reception was held at the home of the groom's parents in Blairmore. The young couple will make their home in Blairmore.

Steve Zaak, a resident of West Coleman, appeared before Magistrate Gresham on Monday morning, charged with driving a car while intoxicated. He pleaded guilty and was sentenced to fourteen days in Lethbridge jail. Zaak's car collided with that of W. Adlam, of Hillcrest, on Saturday evening, just east of Blairmore's main street. Considerable damage to both cars resulted. In addition to the jail sentence, Zaak was ordered to pay damages amounting to about \$200 to Adlam.

Clark remarked on Monday: "All is not blood that spatters."

Mrs. Lulu Porter, 23, died at Calgary last week end of poliomyelitis.

Consistency: Tax the banks, but run a non-taxable institution in opposition.

Nineteen degrees of frost was registered in Blairmore on Monday morning.

Picked up in The Enterprise office, a lady's hairpin. Owner can obtain same by calling any hour of the day or night.

Wonder if the Canadian Broadcasting Corporation were listening in to our self-titled dean on Sunday afternoon?

Four sides of the Pincher Creek Echo office look resplendent in new paint. We couldn't see in at the other side—the fifth.

The editor of the Stavelly Advertiser is wearing another smile, for on Tuesday, October 11th, a daughter was born to Mr. and Mrs. Wilson L. Kew.

Val says a house considerably smaller than his residence is available for use as a credit house. It is already furnished with a seat for one official.

Mr. R. E. Phillips, district commercial superintendent of the Alberta Government Telephones, was in town from Lethbridge the early part of the week.

Aberhart took a sudden halt from his boomerang about the press on Sunday last to ask that the ashers collect what they could — the most important part of the so-called religious service.

Baptiste Lamoureux, aged 92, well known pioneer and trapper of the Flathead river district, passed away in the Fernie hospital last week. The remains were laid to rest in Fernie Catholic cemetery on Friday morning.

A. W. Chrysler has resigned his position as teacher at Hillcrest, and left Saturday last for Edmonton, where he accepts a new position. He had been connected with the Hillcrest staff for about eight years, and was very popular.

Mrs. Duncan McDonald, of Drumheller, received word last week of the death of her mother, Mrs. Watson, which occurred at the family home in Dauphin, Manitoba, following a lengthy illness. Mr. and Mrs. McDonald proceeded to Dauphin to attend the funeral.

Do you borrow The Enterprise? Why don't you subscribe for it? If you heard what your neighbor says about you borrowing his, you would feel a little bit inclined to spend \$2 and have a paper of your own. This is just by way of a hint, as we hear a couple of folks blessing their neighbors who had borrowed their paper and didn't bring it back.

Taking a text from the Holy Scriptures and using the Bible and God as backing his actions, old Bill on Sunday last delivered a sermon that slammed no particular newspaper in Alberta, but the press as a whole, and knocked practically all religious faiths but his own. And he would have his audience of so-named "thirteen-year-olds" believe, or try to believe, that the success of the crop in Alberta this year was due to the fervent prayers of his poor handful of souls. Aberhart has polluted the air quite often and each successive attempt seems to outdo the previous one. In other words, on the air Billy is making a progress along the same lines as that of his back-stepping government. Just a little more rope, please?

When Next You Come to Town

always remember your local bank man—

BELLEVUE BRANCH - W. INNES, Manager

Merchants of Drumheller subscribed \$355 towards cost of oiling the streets.

Lord Stanley, dominions secretary and heir to the Earl of Derby, died in London Sunday, aged 44.

Mr. and Mrs. Joe Shearlaw, of Drumheller, celebrated their silver wedding anniversary on October 7th.

Dorothy Thompson, the author and lecturer, says: "Liberalism is a type of mind, a kind of spirit and a sort of behavior, the basic of which is an enormous respect for personality," which is certainly vague enough to be a good definition.

PERSONAL
MEN OF 30, 40, 50! WANT VIM, Vigor for run-down body? Try OBTREX Tablets of raw oyster stimulants and general body builders. If not delighted with results of first package, maker refunds its low price. Call or write Blairmore Pharmacy and all good druggists.

Personal property and clothing worth \$150 were stolen from an automobile owned by Elmer Piper, of Okotoks, coach of the Turner Valley Oilers, on Friday morning, according to a report turned in to the Calgary police. The articles were in a suitcase Mr. Piper left in his car when he parked it on First street west, near Seventh avenue. Among the loot was a prized set of silver brushes, bearing all the names of the Trail Smoke Eaters' hockey team.

The Livelihood of Every Man, Woman and Child in the Mining Towns of the Crows' Nest Pass depends on the production of

- COAL -

The Railways are by far the Largest Consumers of Coal from this district.

It follows, therefore, that every passenger or article carried by bus or truck means so much less coal consumed by the Railroads, shorter working time and lower earnings of those employed in the Coal Industry.

WHEN YOU USE THE RAILROADS — you are assisting yourself at the same time
